

ENGINEERING DEPARTMENT

May 9, 2001

Mr. Brian Butler
Audio Services Division
Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Dear Mr. Butler:

On behalf of Entercom Seattle License, LLC, it is respectfully requested that the attached license for the KBSG-FM auxiliary antenna facility BLH-19990714KF, Tacoma, WA, be cancelled. A copy of the license and its associated Construction Permit, BPH-990714IG, are attached.

On an associated matter regarding KBSG-FM, please let this letter memorialize a conversation that I had earlier today with Ms. Kim Nguyen of your office. In that discussion, we clarified the fact that the actual licensed main facility for KBSG-FM is the one described in license file no. BLH-891018KC.

Please do not hesitate to call if any additional information is desired in connection with this matter.

Yours truly,

John W. Price

Entercom Seattle License, LLC
Cancellation of FM Broadcast Auxiliary Antenna

Entercom Seattle License, LLC licensee of FM station KBSG-FM, CH 247C, Tacoma, WA, hereby requests that the Commission cancel the license for the following KBSG-FM auxiliary antenna facility: **BLH-19990714KF**

Please note that the instrument of authorization does not clearly indicate that this was a license for an auxiliary FM antenna system. However, the accompanying Construction Permit, BPH-990714IG demonstrates that the facility was an auxiliary antenna.

This facility has been removed from service. A copy of the license and associated construction permit is submitted herewith.

BALA CYNWYD PA 19004

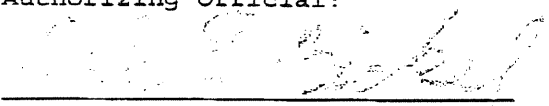

Facility Id: 33682

Call Sign: KBSG-FM

License File Number: BLH-19990714KF

This License Covers Permit No.: BPH- 990714IG

Authorizing Official:

Dale E. Bickel

Senior Engineer
Audio Services Division
Mass Media Bureau

Grant Date:

This license expires 3:00 a.m.
local time, February 01, 2006.

Subject to the provisions of the Communications Act of 1934, subsequent acts and treaties, and all regulations heretofore or hereafter made by this Commission, and further subject to the conditions set forth in this license, the licensee is hereby authorized to use and operate the radio transmitting apparatus herein described.

This license is issued on the licensee's representation that the statements contained in licensee's application are true and that the undertakings therein contained so far as they are consistent herewith, will be carried out in good faith. The licensee shall, during the term of this license, render such broadcasting service as will serve the public interest, convenience, or necessity to the full extent of the privileges herein conferred.

This license shall not vest in the licensee any right to operate the station nor any right in the use of the frequency designated in the license beyond the term hereof, nor in any other manner than authorized herein. Neither the license nor the right granted hereunder shall be assigned or otherwise transferred in violation of the Communications Act of 1934. This license is subject to the right of use or control by the Government of the United States conferred by Section 606 of the Communications Act of 1934.

Name of Licensee: TRIBUNE COMMUNICATIONS COMPANY

Station Location: WA-TACOMA

Frequency (MHz): 97.3

Channel: 247

Class: C

Hours of Operation: Unlimited

Callsign: KBSG-FM

License No.: BLH-19990714KF

Transmitter: Type Accepted. See Sections 73.1660, 73.1665 and 73.1670 of the Commission's Rules.

Transmitter output power: 17 kW

Antenna type: (directional or non-directional): Directional

Description: ODD ODD990714IG

Antenna Coordinates: North Latitude: 47 deg 18 min 14 sec
West Longitude: 122 deg 23 min 43 sec

	Horizontally Polarized Antenna	Vertically Polarized Antenna
--	--------------------------------------	------------------------------------

Effective radiated power in the Horizontal Plane (kW):	54	53
Height of radiation center above ground (Meters):	133	133
Height of radiation center above mean sea level (Meters):	283	283
Height of radiation center above average terrain (Meters):	226	226

Antenna structure registration number: 1037820

Overall height of antenna structure above ground (including obstruction lighting if any) see the registration for this antenna structure.

Special operating conditions or restrictions:

- 1 Each component shall be restricted to the following values at the azimuths specified below.
14.0 kW at 175 degrees True
3.4 kW at 230 degrees True
16.9 kW at 295 degrees True
- 2 Neither the horizontally nor vertically polarized radiation component shall exceed the following value at any azimuth.
54.0 Kilowatts
- 3 The permittee/licensee in coordination with other users of the site must reduce power or cease operation as necessary to protect persons having access to the site, tower or antenna from radiofrequency electromagnetic fields in excess of FCC guidelines.

FM BROADCAST STATION CONSTRUCTION PERMIT
AUXILIARY ANTENNA

Official Mailing Address:

ENTERCOM SEATTLE LICENSE, LLC
SUITE 409
401 CITY AVENUE
BALA CYNWYD, PA 19004

Facility ID: 33682
Call Sign: KBSG-FM

Permit File No.: BPH-990714IG

Authorizing Official:

Dale E. Bickel
Senior Engineer
Audio Services Division
Mass Media Bureau

Grant Date: August 10, 1999

This permit expires 3:00 a.m.
local time, August 10, 2002

** This construction permit is for AUXILIARY facility #1. **

*** This authorization is reissued on September 21, 1999 to
correct the licensee's name. ***

Subject to the provisions of the Communications Act of 1934, as amended, subsequent acts and treaties, and all regulations heretofore or hereafter made by this Commission, and further subject to the conditions set forth in this permit, the permittee is hereby authorized to construct the radio transmitting apparatus herein described. Installation and adjustment of equipment not specifically set forth herein shall be in accordance with representations contained in the permittee's application for construction permit except for such modifications as are presently permitted, without application, by the Commission's Rules.

New Commission rules which become effective on February 16, 1999, have a bearing on this construction permit. See Report & Order, Streamlining of Mass Media Applications, MM Docket No. 98-43, 13 FCC RCD 23056, Para. 77-90 (November 25, 1998); 63 Fed. Reg. 70039 (December 18, 1998). Pursuant to these new rules, this construction permit will be subject to automatic forfeiture unless construction is complete and an application for license to cover is filed prior to expiration. See Section 73.3598.

Equipment and program tests shall be conducted only pursuant to Sections 73.1610 and 73.1620 of the Commission's Rules.

Name of Permittee:

Entercom Seattle License, LLC

Station Location:

WA-TACOMA

Callsign: KBSG-FM

Permit No.: BPH - 9907141G

Frequency (MHz): 97.3

Channel: 247

Class: C

Hours of Operation: Unlimited -- For auxiliary purposes only

Transmitter location (address or description):

0.2 km south of the intersection of Water Works Road and
Pierce-King County line, TacomaTransmitter: Type Accepted. See Sections 73.1660, 73.1665 and 73.1670
of the Commission's Rules.

Transmitter output power: As required to achieve authorized ERP.

Antenna type: (directional or non-directional): Directional

Antenna Coordinates: North Latitude : 47 18 14
West Longitude : 122 23 43

	Horizontally Polarized Antenna	Vertically Polarized Antenna
Effective radiated power in the Horizontal Plane (kW).....:	54	53
Height of radiation center above ground (Meters).....:	133	133
Height of radiation center above mean sea level (Meters).....:	283	283
Height of radiation center above average terrain (Meters).....:	226	226

Antenna structure registration number: 1037820

Overall height of antenna structure above ground (including obstruction
lighting if any) see the registration for this antenna structure.

Callsign: KBSG-FM

Permit No.: BPH - 990714IG

Special operating conditions or restrictions:

1. The relative field strength of neither the measured horizontally nor vertically polarized radiation component shall exceed at any azimuth the value indicated on the composite radiation pattern authorized by this construction permit.

A relative field strength of 1.0 on the composite radiation pattern herein authorized corresponds to the following effective radiated power:

54.0 kilowatts.

Principal minima and their associated field strength limits:

14.0 kW at 175 degrees True
3.4 kW at 230 degrees True
16.9 kW at 295 degrees True

Because this construction permit was filed to correct this auxiliary facility's coordinates only and not to make physical changes, new directional antenna pattern measurements are not required.

2. Auxiliary #1. This designation is made for FCC staff convenience only and does not preclude KBSG-FM from using any other authorized auxiliary facility in preference to the one authorized herein.
3. The permittee/licensee in coordination with other users of the site must reduce power or cease operation as necessary to protect persons having access to the site, tower or antenna from radiofrequency electromagnetic fields in excess of FCC guidelines.

*** END OF AUTHORIZATION ***
